

## TCT Jigsaw Blades

*The Perfect Choice For Cutting Fibre Cement*

Cutting Round Corners | Awkward Shapes | Cutting Out For Pipes | Socket & Backbox Holes

### Product Overview

The NoMorePly<sup>®</sup> Fibre Cement TCT Jigsaw Blade is the perfect addition to your toolbox and made from extremely durable, high carbide technology. Typically, cutting round pipes and awkward shapes on fibre cement boards has been done using tile nipper, but with the NoMorePly<sup>®</sup> Fibre Cement TCT Jigsaw Blade you can get a perfect cut with our NoMorePly boards up to 22mm thick.

It really is the faster, cleaner, and less dusty way to cut your fibre cement No More Ply tile backing boards.

**Stoke Code:** 6303

**Bulk Qty:** 5 & 10
